Thanks Gail,

I'll wait to hear what Cindy says about a slide on VOC speciation and HAPs.

Jody, Cindy,

I attached some text edits to the slides 11 to 16. I reversed UDEQ and EPA in the list of agencies on slide 11. I didn't add a specific mention of formaldehyde because it is included in VOC. If

we want to talk in more detail about VOC speciation I can add a slide that addresses formaldehyde and other highly reactive VOC, including BTEX. The high reactivity VOC are important for ozone and are also HAPs, which have been a concern to some people in the Basin. Let me know if you would like to add a slide on VOC speciation and HAPs.

Ex. 5 - Deliberative Process

thanks,

Gail

Hi Gail,

Here is an updated version of the ppt, with Cindy's changes except for questions 4, 6 and 7 addressed. I was hoping you could help with those.

Thanks,

Jody
